## JANUARY 1, 1860!

OPENING WITH THE NEW YEAR we propose advantages to Merchants and Tr ders throughout East Tennessee and Western Virginia that they have never before had offered them in the market Our arrangements are perfected for a heavy and complete stock of Groceries at all times, and our connection with many of the Southern Manufactories of Cotton enable us to offer all widths of Brown Sheeting and Osnaburgs, Yarns, Wrapping and Sewing Twine, Carpet Chain and Cansile Wick, at Manufacturer's prices, and will duplicate all invoices for such articles, both by Merchants East or North. We are also sole Agents for East Tennessee, for the sale of Virginia Manufactured Tobacco, made at two of the largest establishments in that State, and have no limit but to weet the price of any similar goods sold North, and this we will do. Merchants in the State or dering suc noses from us, have no taxes to pay upon them. [pan12] R. M. McPHERSON & C.

# WORMS.

THE SEASON IS AT HAND when these scourges of childhood begin to become both troublesome and dangerous. Dr JOHN BULL'S VEGETABLE WORM DESTROYER is a remedy alike pleasant and effectual for the evil. There is not the least difficulty in getting children to take the medicine. It is prepared in the form of Candy Drops, and will be eaten with avidity by children of all ages. It destroys and expels worms more effectually than any remedy now in use, while at the same time it will in no way effect injuriously the health of the child.

FOR THE SPEEDY CURE OF

Intermittent Fever or Fever and Ague. Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilions Fevers; indeed for the whole Class of Diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such a remedy we r.e now enabled to offer, with a perfect certeanty " at it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cure" expels the miasmatic poison of FEVER AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of com-plaints, but also the cheapest. The large quan-tity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fever and Ague prevails, every body should have it, and use it freely, both for cure and protection. It is hoped this price will place it within the reach of all-the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the dis-

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike. It is an invalua-ble protection to immigrants, and persons travelling or temporarily residing in the malarious districts. If taken occasionally, or daily, while exposed to the infection that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords.

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human or-ganism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy

at once so simple and inviting. Not only do they care the every-day com-plaints of every body, but also many formida-ble and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Hearthurn, Heudache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.
